

2015 Western Region Biopesticide and Organic Trials

	<u>Commodity</u>	<u>Planned Start</u>	<u>Planned Complete</u>	<u>Planned Report</u>	<u>WR Report</u>	<u>HO Report</u>
Food-Fruit						
Efficacy and Phytotoxicity of Biopesticides for Management of Spotted Winged Drosophila (SWD) in caneberries	Caneberry					
Bolda, Mark, UC Cooperative Extension			12/1/2015		11/25/2015	11/25/2015
Schreiber, Alan, Ag Development Group, Washington		7/15/2015			3/24/2016	10/26/2015
Efficacy of AF36 for Displacement of Aflatoxin Producing Fungi in Figs	Fig					
Michailides, Themis, UC Kearney Agricultural Research & Extension Center		5/15/2015		4/4/2016	1/4/2017	1/4/2017
Doster, Mark, UC Kearney Agricultural Research & Extension Center		5/15/2015		4/4/2016	1/4/2017	1/4/2017
Organics						
Efficacy and Phytotoxicity of Biopesticides on Apple for the Control of Fire Blight	Apple					
Johnson, Kenneth, Oregon State University		3/20/2015			7/2/2016	6/29/2016
Grose, Julianne, Brigham Young University		4/1/2015			3/24/2016	3/24/2016
Smith, Tim, Washington State University		4/7/2015			11/9/2015	8/3/2015
Other						
Efficacy and Toxicity of Biopesticides on Honeybee for the Control of Varroa Mite	Honey Bees					
Lastro Nino, Elina, UC Davis		7/15/2015	9/1/2016		3/24/2016	10/28/2015
Transgenic Rootstock to control Crown Gall in Walnuts	Walnut					
Dandekar, Abhaya, University of California, Davis					9/9/2016	9/9/2016
