 [HQ Report](#)

Efficacy of Dominus biofumigant on Conifer Seedlings for Control of Fusarium, Pythium and Cylindrocarpon.

Khadduri, Nabil, Washington Dept of Natural Resources Webster Nursery

Food-Fruit

Conventional Residue Mitigation Blueberry

Blueberry

Schreiber, Alan, Ag Development Group, Washington

12/11/2017

12/11/2017

Efficacy and Phytotoxicity of Biopesticides for management of Spotted Wing Drosophila (SWD) in blueberry and caneberries

Caneberry

Bolda, Mark, UC Cooperative Extension

9/15/2017

1/2/2018

12/28/2017

12/28/2017

Efficacy and Phytotoxicity of Biopesticides on Organic Apple for the control of Fireblight

Apple

DuPont, Tianna, Washington State University

12/15/2017

8/30/2017

Johnson, Kenneth, Oregon State University

7/6/2017

7/6/2017

Food-Vegetables

Efficacy and Phytotoxicity of Biopesticides on Spinach for the control of Downy Mildew in Organic Production Systems

Spinach

Klosterman, Steve, USDA ARS

8/1/2017

3/26/2018

Efficacy of Biopesticides on Mushrooms for the Control of Phorid Fly (Megaselia halterata)

Mushroom

Kelly, Charlee, Monterey Mushroom

Forestry

Efficacy of Biopesticides on Conifer Seedlings for the control of Pythium and Cylindrocarpon

conifer nursery stock

Chastagner, Gary, Washington State University

9/1/2017

2017 Western Region Biopesticide and Organic Trials

	<u>Commodity</u>	<u>Planned Start</u>	<u>Planned Complete</u>	<u>Planned Report</u>	<u>WR Report</u>	<u>HO Report</u>
Ornamentals						
Crop Safety of over the top herbicide application in ornamental crops Moretti, Marcelo, Oregon State University	Ornamentals					
Crop safety of over-the-top herbicide application in ornamental crops Wilens, Cheryl, University Of California Cooperative Extension	Ornamentals				1/2/2018	12/26/2017
Other						
Efficacy and toxicity of biopesticides for varroa mite management of honey bees Lastro Nino, Elina, UC Davis	Honey Bees			12/28/2017	1/2/2018	12/22/2017
