

Western Region 2012 Training Webinars

Matt Hengel

Some thoughts on appropriate cleaning and solvents...are you doing what you think you are?

SOPS

- Do you know where your SOPs are?
 - Back at the office – not a good answer 😞

GLPs 40 CFR 160

Subpart E Testing Facilities Operation

Section 160.81 Standard Operating procedures

(c) Each laboratory or other study area shall have immediately available manuals and standard operating procedures relative to the laboratory or field procedures being performed. Published literature may be used as a supplement to standard operating procedures.
